Subject: RE: Spirit of Sacramento disposition memo

This looks good to me, with one comment I received from my attorney:

The last paragraph is very open-ended, where it says we won't impede ongoing operations, since USACE could decide they feel impeded and boot out EPA. I do not expect this will happen, as we've all been working very well together, but my attorney read it and was concerned about it.

Would it be possible to come up with some date when the ramp is needed again - I think it was early next year - and put in something like:

d. USACE will provide a facility for operations as per the property agreement, and within a timeframe not to impede USACE operations planned at the Sausalito facility for February 2017, until the vessel is removed by Contra Costa County.

And we'd replace February with whatever the right time frame is. I really don't expect that we'll run anywhere near that long in our work, but having some kind of defined time frame for when USACE expects to need the ramp again would tighten up that paragraph.

Thanks,

Importance: High

Good Morning,

Please review the attached disposition memo. If you have comments or changes, please use track changes and return to me. Need to know if signature lines are correct for each agency as well.

This memo is to document our agreement on the way forward with the vessel. If you have questions or concerns, please let me know right away. I would like to have this signed prior to vessel transiting to

ACOE facility.

Marty,

If you could provide us with your property agreement as well so we can have that in place.

Thanks so much!

V/R
